Graduate studies

WORK EXPERIENCES

Post Degree
RFF-CMCC EIEE
Education, training, research and development
BRESCIA (BS)
02/2022 - 08/2022

Main activities and responsibilities: My research work focuses on the Digital Divide. I am tasked with carrying out a review of the literature on this topic though the use of bibliometric analysis and visualization tools.
Acquired skills and achieved objectives: This job has been a great opportunity to both learn the basics of doing research and thus improving my skills and abilities, and to increase my knowledge about issues related to the environment, and particularly climate change. Within a few weeks, I have gained what my supervisor has described as a solid understanding of the theoretical framing of the digital divide literature, as well as a good knowledge of VosViewer – a software to visualize the results of bibliometric analysis. My next step in this research will be to draft the review paper, as well as to learn how to carry out bibliometric analysis through R, a programme which offers much more flexibility in analysing my data.
Employed as: other - consulting/collaboration

ACADEMIC STUDIES

BACHELOR'S DEGREE
2018 – 2021
CERTIFIED TITLE
